EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arlene P. Neal on August 29, 2005.

The application has been amended as follows: in claim 1, line 17 and claim 15, lines 21, "challenging" is changed to --"challenge"--.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose authentication information that contains at least a challenge and a response, wherein after the response to the challenge is generated by the network terminal, the challenge is stored on the network terminal to ensure that the challenge is used once, and performing authentication based on the authentication information obtained from the mobile communications system by transmitting the challenge to the terminal through the network, by checking that the challenge is unique from challenges used in previous authentication exchanges, by generating, if the challenge is unique and is not stored on the network terminal, the response from the challenge in the identity module of the terminal and by comparing the response with the response received from the mobile communications system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
